

American Isostatic Presses, Inc.

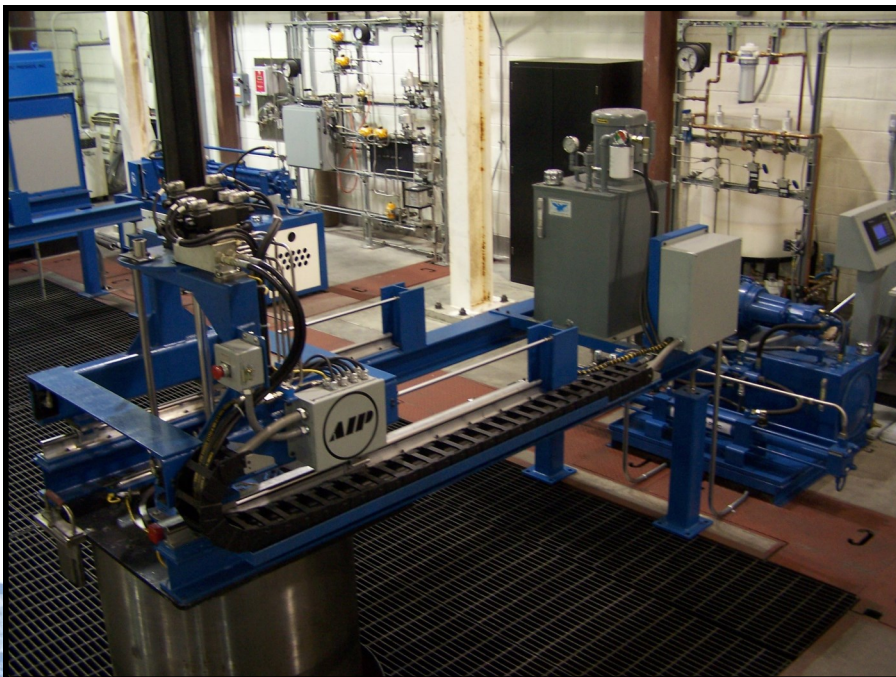

PRODUCTION COLD ISOSTATIC PRESS SYSTEMS

AIP manufactures a wide variety of systems from pilot scale units to large production systems. Featuring AIP ASME Code vessel designs and rugged pumping these CIP units provide more ROI for customers, improving their bottom line.

Right: AIP16-30CB

16" ID x 48" IL

30,000 psi

MODEL	*DIAMETER	LENGTH	PRESSURE	VESSEL
AIP12-30CB	12"	30"	30,000 psi / 207 MPa	Interrupted Thread or Plate Frame Yoke
AIP14-30CB	14"	36"	30,000 psi / 207 MPa	Interrupted Thread or Plate Frame Yoke
AIP16-30CB	16"	48"	30,000 psi / 207 MPa	Interrupted Thread or Plate Frame Yoke
AIP18-30CB	18"	60"	30,000 psi / 207 MPa	Interrupted Thread or Plate Frame Yoke
AIP20-30CB	20"	72"	30,000 psi / 207 MPa	Interrupted Thread or Plate Frame Yoke
AIP24-30CB	24"	84"	30,000 psi / 207 MPa	Interrupted Thread or Plate Frame Yoke
AIP30-30CY	30"	96"	30,000 psi / 207 MPa	Plate Frame Yoke

- Diameter and lengths are standards. AIP can supply custom dimensions to fit any need.
- Pressure shown are typical. Higher and lower pressure systems are available.
